

We are thinking about a better relationship between foreign residents and Japan.

Japanese language is difficult. Especially, writing a Japanese characters is the more difficult than speaking.

Japanese government entitle us to write a confidential documents to civil polity instead of applicant.

This is a picture that I took with MIFA (Meguro International Friendship Association) members when I went to Shibuya last autumn.

- We can submit confidential documents about a restaurant concession.

About Permanent Resident

Immigration inspector make an examination if you are a nuisance to Japanese society.

1 You should check the more carefully your payment about tax (especially an inhabitant's tax) than your deposit.

2 You should live carefully without getting trouble.

For example, I knew a person who wasn't driving his car during the period of examination.

If you get some trouble and be sentenced to penal servitude or imprisonment, you had better wait for more than 5 years and submit a letter of apology.

If you get some trouble and be sentenced to suspend execution, you had better wait in a period of suspension progresses.

Permanent Resident gives you many advantages. For example, you can set a loan made by a bank easily. Your wife/husband finds employment easily.

Read the Immigration Bureau of Japan's website carefully and submit. Good luck.

About Business Manager

Foreign residents get this status when they make a company (1) or succeed to a company (2). 1 is different from 2 in requirements.

1 Immigration inspector check if an applicant's company can survive for a few years at least.

1. You have to get a place for management.
2. Your company have to be a certain scale company which needs at least 2 full-time employees.
3. You should have 5,000,000Yen for contribution. This requirements isn't written by a law. But immigration inspector think that a company needs such a money for maintaining.

2 Immigration inspector check if an applicant really work at a company submitted.

- 1.2. is the same as the above 1
3. You need to be experienced in management for 3 years include the period of graduate school.
4. You have to receive no less reward than a Japanese who would receive for comparable work.
